Claims 36-70 are allowed.

The following is an examiner's statement of reasons for allowance: No prior art has been found to meet the limitation of claims 36-70 calling for a voltage detector comprising a selectable threshold point circuit to provide one of a plurality of values for a threshold point of the power supply without using a reference voltage and a switch circuit to generate an output indicating whether the value of the power supply has been increased above or below the provided value for the threshold point in response to the followed value of the power supply.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
